WORK EXPERIENCE

Expedia Group – Software Development Engineering Intern (Cyber Security)

Jun 2026 – Jul 2026

- **Architected** an **Apache Airflow** pipeline automating production security telemetry backfills, replacing a manual multi-step recovery process across distributed data pipelines.
- **Engineered** a **human-in-the-loop** AI config generator with built-in validation and approval.
- **Orchestrated** fault-tolerant backfills using **AWS EMR**, **Spark**, and **S3**, enabling automated multi-day recovery.
- **Deployed** the solution to production, cutting backfill time by **83%** (**3 hrs** → **30 mins**) and saving **200+ on-call hours annually** across multiple production incidents.
